

## North Queensland industry briefing: ST Logistics

### Australia - Singapore Military Training Initiative local business opportunities

#### Overview

The Australia Singapore Military Training Initiative will build on Australia's defence cooperation with Singapore by providing increased access to Australian military training areas by the Singapore Armed Forces (SAF). Under the initiative, up to 14,000 SAF personnel will conduct training in Australia for up to 18 weeks per year.

To support this initiative, up to \$2.25 billion will be invested in Central and North Queensland to support new infrastructure and facilities.

ST Logistics, Singapore's leading logistics company, in partnership with the Department of State Development (DSD), invites North Queensland businesses to an industry briefing to learn of opportunities that will flow in the region.

#### Who should attend this event?

This briefing will provide a unique opportunity for local businesses to pitch their capability directly to the ST Logistics management team.

This industry briefing is ideal for local businesses with capability in the following areas:

- facilities management
- vehicles leasing/land transportation
- disposal of ammunition
- food/water supplies
- equipment support such as container offices
- laundry service
- freight management
- ship husbandry/port logistics
- security.

#### Program

- Welcome by Paul Holden, DSD Regional Director North Queensland
- Introduction to ST Logistics
- Working with ST Logistics to support the Singapore Armed Forces in Townsville and opportunities for local businesses
- Q&A and networking

## About ST Logistics

ST Logistics (STL) is Singapore's leading logistics company providing Total Supply Chain solutions to their partners in the public and private sectors.

STL has been providing a wide array of customised solutions to the aviation industry and government ministries within Singapore's Ministry of Defence (MINDEF), Ministry of Health (MOH), Ministry of Home Affairs (MHA), Ministry of Education (MOE), and other key public institutions.

STL has partnered with the Singapore Armed Forces (SAF) since the early 1990s to provide outsourced logistics services. This included establishing and operating SAF's logistics operations from four single storey warehouses in 1993.

Since that time, STL worked with the SAF to design, build and operate a new Army Logistics Base (ALB) to meet its growing logistics needs in the early 2000s.

This continuing long-term partnership has allowed the SAF to harness commercial logistics expertise and best practice for space utilisation, functionality and effectiveness.

ST Logistics are now in the early stages of engaging with Townsville-based industry to understand the local capacity that may support the SAF as the Australia – Singapore Military Training Initiative begins to take effect.
