

**PRODUCT - SERVICE**

For over 70 years, Queensland Gaskets have been continuously evolving their production capabilities to utilise the latest technology in manufacturing. Queensland Gaskets are converters of Mil Spec and Commercial Elastomer's, Engineering Plastics as well as Mil Spec EMI Shielding, Laminated Shims and High Temperature rated composites currently used within a number of Defence programs.

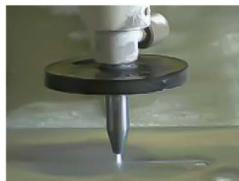

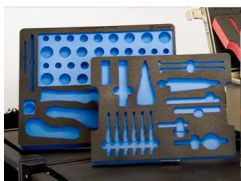

Queensland Gaskets also offer custom designed, chemically inert aerospace grade foam insert packaging with optional individual tool etching with casing for products to last the mission, not just the journey.

**DISCRIMINATORS**

- Precision Manufacturing
- Sole Australian Distributor of SSP EMI Shielding Materials
- Global Export supplier to range of industries
- Leading Australian Manufacturer for over 70 years

**CAPABILITIES**

- **5 Axis Water Jet Cutting**  
(Tolerance +/-0.1mm)  
3000mm x 1500mm cutting area
- **CNC Routing**  
(Tolerance +/-0.1mm)  
2400mm x 1400mm cutting area
- **Laser Cutting and Tool Etching**  
(Standard tolerance +/-0.1mm)  
1200mm x 600mm laser bed size
- **Hydraulic Press Cutting**  
(Standard tolerance +/-0.25)  
Stamps up to 750mm<sup>2</sup>

**DEFENCE PROJECTS**

- SEA 5000** - Rubber components
- Collins Class** - Laminated shim components
- Land 400 Ph2** - Rubber components, Thermal Interface and EMI Shielding, Metal components, MOTS & COTS Consumables
- JP2072** - US Mil Spec EMI/RFI Shielding and Thermal Interface materials
- DSTG** - High temperature composite parts for rocketry
- Daromont Technologies** - EMI Shielding for enclosures
- Wedgetail** - Aerospace grade precision cut foam parts
- LAND 121** - Haulmark Trailers - High volume Rubber & Plastic components
- Bushmaster** - Rubber and Foam precision cut components
- Gilmour Space Technologies** - EMI shielding, Thermal Interface components
- Hawkei** - Rubber components
- ATSpace** - Spiral wound gaskets, High temperature composite parts for rocketry
- PFI (Products For Industry)** - High temperature composite parts for rocketry
