

BUILDING SPECIALISED ALUMINIUM WORK BOATS

- Product Design
- Smart Solutions towards Efficiency
- integrating Diesel Outboard
- Innovative thinking
- Partner in Marine needs

"Creating innovative, safe and reliable vessels with a vision towards efficiency & sustainability"

CUSTOMERS

• Jetwave Marine Services

An Australian, WA based company offering the very best in specialised vessels and marine based services throughout Australia. Jetwave's primary objective is to supply industry leading marine logistic solutions, both offshore and in port, for clients across the shipping, oil & gas, resource and construction sectors. BtB Marine built twin 8m line handling boats for Jetwave Marine, where their port support duties will include line handling and dive operations in Fremantle & Port Headland. - see middle 2 left photos.

• NSW Department of Primary Industries

BtB marine supplied NSW DPI with a ULR750 (2C) combined with an OXE 300 hp diesel outboard in September 2022, 10 weeks after signing the contract of supply. The vessel is 7.5 m overall with a beam incl. fender of 3.45m. It was supplied of a custom BtB Marine Aluminium Trailer. - see top left photo.

• Gladstone Port Corporation

BtB marine Has supplied Gladstone port corporation with 1 x 6m Twin Hull Maintenance Cat (2D), 1 x 10m Twin Hull Maintenance Cat (2C) - see top middle photo - and 1 x 10m Oil Response Mono Hull (2C). - middle left photo.

• ix Blue [Ocean Infinity] - project INDIGO 750ULR

The HydroScheme Industry Partnership Program is a commercial acquisition program that undertakes focused hydrographic survey activities to contribute to national charting priorities. award winning vessel INDIGO was fitted out to deliver imagery towards this program for the department of defence - see bottom and middle right photo.

• RC Marine

BtB Marine has supplied RCM with 3 x 8 m mono hulls(2C), 2 x 8 m line vessels (2C) and a 12 m landing craft(2C) - see top right photo - over a 14 year long relationship. RCM is a Gladstone based marine services company that provides crew transport, diving services, cargo and vehicle transportation as well as line boat services to the Gladstone Port Region as well as AUS wide.

KEY PARTNERS

- DMS** • Design Compliance
Peter Holmes
- OMS** • Marine Surveying
Steve Foster

KEY SUPPLIERS

- Bluescope Distribution** • Certified Aluminium Supply
- Power Equipment** • In & Outboard Engines
- Sea Machines** • Data-driven Intelligence
Autonomy & Connectivity

CAPABILITY

- 2x 25m Vessel / year
- 3x 16-18m Vessel / year
- 4x 12m Vessel / year
- 20x 6m Vessel / year

DISCRIMINATORS

- Critical Parts of Vessels are Designed & Manufactured in-house
- Low Volume, High Quality, Cost Effective
- Integration of Diesel Outboards for 'plug & play' Long Range Vessels
- Investing heavily in Vessel's through-life-Cost & Maintenance Assistance

KEY DESIGNERS

- CNC MARINE** • Peter Holmes
- NAVAL ARCHITECTS AUSTRALIA** • Jon Patti
- AIR RIDER** • Jayden Meir

- Fabrication to Standards AS 4132.2-1993 boat & ship design & construction + AS NZS 1665-2004 welding of aluminium structures
- Certified Personnel Certificate III & IV engineering
- ISO 9001 certified Quality Management System and Environmental Policy in place
- Members of The International Institute of Marine Surveying (IIMS) & ACMG
