

PRODUCT – SERVICE

Specialists in high-quality gaskets and sealing materials, with proven expertise working on and supplying components to major defence projects including land, sea and air.

Queensland Gaskets are the Australasian distributors and converters of SSP Mil Spec EMI/RFI Shielding that is currently used in programs with Raytheon, Lockheed Martin and Boeing.

Australian owned and operated, Queensland Gaskets source and manufacture a range of materials including rubber, high temperature, EMI/RFI shielding (conductive silicone elastomers), plastics, composites, laminates, and shims. Reliable and committed to quality Queensland Gaskets is a global supply chain and export supplier to a range of industries.

QG offer custom cutting and sealing, rapid prototyping, excellent service, engineering and design support and fast-turnarounds.

We are Australia's supplier of SSP EMI/RFI Shielding:

DISCRIMINATORS:

- 68 Years Precision Manufacturing
- MIL-DTL-83528 tested, QPL Listed, and UL 94 compliant materials

CAPABILITIES

- **Water Jet Cutting**
(Standard tolerance +/-0.2mm)
Cuts 2850mm x 1450mm x 110mm and 80mm deep for metals
- **Laser Cutting**
(Standard tolerance +/-0.1mm)
1200mm x 600mm laser bed size
- **CNC Knife Cutting**
(Standard tolerance +/-0.2mm)
Cuts sheets up to 2500mm x 1500mm
- **CNC Routing**
(Standard tolerance +/-0.2mm)
Cuts sheets up to 2500mm x 1500mm and 95mm deep
- **Press Cutting**
(Standard tolerance +/-0.25)
Stamps up to 750mm²
- **SME Flexibility**
Fast turn-arounds, rapid prototyping and CAD Drawing Conversions.

DEFENCE PROJECTS

Land 400 Ph2 – Rubber components, Metal components, MOTS and COTS Consumables, EMI shielding

Land 400 Ph3 – (RDA) Assembled parts from different materials

JP2072 – US Mil Spec EMI/RFI Shielding and Thermal Interface materials

Wedgetail – Aerospace grade precision cut foam parts

LAND 121 – Haulmark Trailers - High volume Rubber and Plastic components

LAND 121 – Holmwood Highgate - Gaskets and Rubber components

Bushmaster – Rubber and Foam precision cut components

EMI/RFI Shielding Projects

- Raytheon Excalibur 155mm Missile Program
- Raytheon TOW Missile Program
- Lockheed Martin KC-130 Aerial Refuelling aircraft
- Boeing North America military projects
- Lockheed Martin North America military projects
