

Products & Capabilities

- Craig International Ballistics (CIB) is Australia's largest and most diverse armour manufacturer specialising in lightweight bespoke composite body armour and vehicular armour protection systems.
- Our products include military and police personal body armour, aviation armour, naval armour and armoured vehicles.
- CIB is also a significant manufacturer of military and police training inserts to replicate the weight, thickness and flexibility of operational soft and hard armour inserts.
- In addition, CIB also provides military and architectural bullet resistant glass and framing solutions to a variety of NIJ, ASNZS and STANAG testing standards.
- Our services include ballistic testing certification and refurbishment programs, through life product inspections along with comprehensive packaging and storage solutions.

Discriminators

- Trusted supplier of the Australian Defence Force under LAND 125-3B/4 Solider Combat Ensemble – Protection Elements (SCE-PE) program with over 400,000 items supplied since 2014.
- CIB is a proven privately owned Small to Medium Enterprise (SME) that was established in 1999.
- Diverse product portfolio with products designed for Military, Police, Cash In Transit, Aviation, Naval and Architectural applications.
- State-Of-The-Art Queensland manufacturing facility.
- High quality products, made to exacting specifications in Australia using the latest ceramic, UHMWPE and transparent armour product technologies.
- Strategic partner relationship with American Glass Products (AGP), Dupont and Honeywell.
- Essington Lewis Winner – Best ADF/SME Team of the Year (2019).
- DISP Level 2 Membership.
