

### PRODUCT – SERVICE

Specialists in high-quality gaskets and sealing materials, with proven expertise working on and supplying components to major defence projects including land, sea and air.

Queensland Gaskets are the Australasian distributors and converters of SSP Mil Spec EMI/RFI Shielding that is currently used in programs with Raytheon, Lockheed Martin and Boeing.

Australian owned and operated, Queensland Gaskets source and manufacture a range of materials including rubber, high temperature, EMI/RFI shielding (conductive silicone elastomers), plastics, composites, laminates, and shims. Reliable and committed to quality Queensland Gaskets is a global supply chain and export supplier to a range of industries.

QG offer custom cutting and sealing, rapid prototyping, excellent service, engineering and design support and fast-turnarounds.

We are Australia's supplier of SSP EMI/RFI Shielding:

### DISCRIMINATORS:

### CAPABILITIES

- **Water Jet Cutting**  
(Standard tolerance +/-0.2mm)  
Cuts 2850mm x 1450mm x 110mm and 80mm deep for metals
- **CNC Routing**  
(Standard tolerance +/-0.2mm)  
Cuts sheets up to 2500mm x 1500mm and 95mm deep
- **Laser Cutting**  
(Standard tolerance +/-0.1mm)  
1200mm x 600mm laser bed size
- **Press Cutting**  
(Standard tolerance +/-0.25)  
Stamps up to 750mm<sup>2</sup>
- **CNC Knife Cutting**  
(Standard tolerance +/-0.2mm)  
Cuts sheets up to 2500mm x 1500mm
- **SME Flexibility**  
Fast turn-arounds, rapid prototyping and CAD Drawing Conversions.
