

SERVICES

SAFE. EXPERIENCED. QUALITY.

Hall Contracting is Australia's largest dredging, civil and marine civil company. Founded in 1946, Hall has a wealth of experience in undertaking complex and remote dredging and civil infrastructure projects.

Our services include:

- **Capital dredging:** Dredging new infrastructure including channels, swing basins, berths and more for ports and defence facilities.
- **Maintenance dredging:** Removing sediment from existing channels and harbours to improve navigation.
- **Ship lift dredging:** Dredging underneath ship lift facilities to improve capacity.
- **Land reclamation:** Creating new land from oceans, rivers and harbours which can be used to house new defence facilities.
- **Civil and marine civil infrastructure:** Constructing a wide array of marine civil infrastructure including wharves, boat ramps and seawalls.

CAPABILITIES

Hall possesses a capable fleet of 12 dredges including:
