MICROELECTRONIC TECHNOLOGIES QUAD CHART

OVERVIEW & CAPABILITIES

- Microelectronic Technologies was founded in 1992
- 20-years supporting the defence industry
- Electronic Design and Manufacturing
- Specialises in Prototyping and Production
- Software and Firmware Design
- Automated Test Equipment
- LabVIEW Test Development

KEY CUSTOMERS & PROGRAMS

- Boeing ATS Loyal Wingman (Key Supplier)
- Boeing Land 2072/2B (Currawong) Comms System
- RUAG Australia - Automated Test Equipment
- Boeing Broadcast Audio Amplifier (Collins-Class Subs)
- Gilmour Space Technologies - Electronic PCB Design
- Memko - Electronic PCB Design
- Thales - Test Equipment Supplies
- Boeing Portable Intercom Station (Collins-Class Subs)

DISCRIMINATORS

- Australian owned and operated
- Strong and agile design team
- 20-years experience supporting the Defence Industry, incl: Sea, Land and Air.
- Design for manufacture
- Design for testing
- High level of repeat business and clients

MEMBERSHIPS, AFFILIATIONS & CERTIFICATIONS

- ISO9001:2015 Certified by SAI Global
- Silver Alliance Partner with National Instruments
- Certified LabVIEW Developers
- IPC-A-610A Certification
- Design Member with SMCBA
- ICN Gateway
