

## PRODUCT

High End Industrial Inspection Equipment

- Conventional Ultrasonics.
- Phased Array Ultrasonics.
- Eddy Current.
- Eddy Current Array.
- X-Ray Florescence.
- X-Ray Diffraction.
- Remote Visual Inspection.
- Borescopes.
- Engine Turning Tools.
- Microscopes.

## CAPABILITIES

- Design, manufacture, distribution and sales of high-end Industrial and scientific inspection equipment.
- A\$40,000,000 ANZ 2020 (Scientific Solution Business Unit).
- Globally over A\$1,000,000,000.

## INSPECTION AND MAINTENACE SYSTEMS DIVISION

Our goal is to supply reliable, economical inspection and maintenance systems that enhance safety, security, and productivity for customers and that contribute to society. We are committed to actively pursuing the development of new technologies, products, and services that offer the best solutions to customers' needs. Our commitment to designing quality products is directly linked to our customers' responsibility to comply with the highest industry standards and regulations in order to ensure public safety.

## DISCRIMINATORS

- Recognised globally for best in class product and world class support.
- Our products make people's lives safer.
- Innovative technologies, outstanding design and top quality.
- High level customer orientation and fast implementation of customers' wishes and market requirements.
- Creativity and originality when developing new products and efficient systems solutions.
- A safer community.

## KEY CUSTOMERS

- DOD – Army – Multiple Sites
- DOD RAAF Amberley –  
DASA – Non-Destruction Testing &  
Composite Laboratory
- DOD RAAF Townsville
- DOD RAAF AMB
- Northrop Grumman AMB
- Lockheed Martin - Helitech
- Federal Police
- State Police
- Border Force
- Qantas
- Qantas Link
- Virgin Australia
- REX
- Cobham
- RFDS
- Pacific Turbines
- Standard Aero
- Hawker Pacific
- Alliance Airlines
- TAE Aerospace
- Airbus Helicopters BNE
- Aviation Australia Cairns
- Parent company: Olympus

## QUALITY ACCREDIATIONS AND AWARDS

- ISO 9001 and 14001 – SAI Global.
