

PRECISION AVIATION GROUP – AUSTRALIA

PRODUCT

Precision Aviation Group (PAG) is a leading provider of products and value-added services to the aerospace and defense industry worldwide. With 17 Repair Stations, and over 650,000 square-feet of sales and service facilities in the United States, Canada, Australia, Singapore, and Brazil – PAG uses its twenty-two distinct business units and customer-focused business model to serve aviation customers through two business functions, Aviation Supply Chain, and its trademarked Inventory Supported Maintenance, Repair and Overhaul (ISMRO®) Services.

PAG provides MRO and Supply Chain Solutions for Fixed and Rotary-wing aircraft. PAG subsidiaries have MRO and manufacturing capabilities on over 150,000 products in four vertical categories – Avionics, Components, Engines and Manufacturing/Sub Assembly/DER.

CAPABILITIES

Strategically located adjacent to the Brisbane Airport, Precision Aviation – Group Australia was established in 2013 to better support operators in the Australasian Region. In addition to the sales & warehouse operations the Brisbane facility also has a FAA, EASA, CASA & DGCA certified repair station specializing in Starter Generators, wheels / brakes, hydraulics & accessories.
