

## PRODUCT

**AVIATION** Deployable Airfield Lighting Kits in case and trailer form. Aviation Lighting for all applications within airfield operations from approach lighting to runway, PAPI, IWI, MAGS and Apron Lighting. Obstruction Lighting from Low to High Intensity.

**OUTDOOR LIGHTING** Solar LED lighting systems engineered for outdoor off-grid lighting applications. Trusted by municipal, government and commercial agencies worldwide. Our solar LED lighting systems are ideal for street, parking lot, park, security and pathway applications, with Remote Fault Monitoring and kill switch.

**MARINE** Trusted by coast guards and port authorities around the world, our solar marine lanterns have proven to withstand submersion, impact, and challenging sea conditions to help preserve safety at sea.

**TRAFFIC** Orion's solar traffic lights are a fast, effective safety improvement for virtually any roadway application.

## CAPABILITIES

- Total airfield lighting solutions.
- Assistance with design, specifications and lighting layouts.
