

PRODUCT

PRODUCT PTB Group Ltd was established in 2001, evolving from a small specialist turbine repair facility based at Brisbane Airport into a global aviation parts and services supply organisation and now part of the Precision Aviation Group who are a leading provider of products and services to the aerospace and defense industry worldwide.

- **Maintenance, repair and overhaul (“MRO”)** services for turboprop aircraft engines
- **Aircraft and engine leasing**
- **Aircraft engine and spare parts**

Through four operating divisions; **Pacific Turbine Brisbane**; **Pacific Turbine USA Group (PT USA & Prime Turbines)**; **Pacific Turbine Leasing and International Air Parts**, we provide specialist services for the Pratt & Whitney PT6A and PT6T series; and the Honeywell TPE331 and T53, as well as the ability to tear down and sell spare parts for other engine variants.

CAPABILITIES

PTB Group offers a range of capabilities for fixed wing and rotary wing aircraft. Workshop facilities provide maintenance, repair & overhaul of PT6A, PT6T, TPE331 & T53 engines and components to a global and varied business clientele. With test cells on-site in our Brisbane and American facilities, customer can be assured of an efficient turnaround.

Dedicated spare parts warehouses in Australasia and the USA, as well as part stores in various countries allows customers a fast return to every-day operations.

Through the PT Leasing division, the PTB Groups offers a complete aircraft and engine management program. With long-term and short-term leasing available for aircraft and engines, customers will be provided with a comprehensive and quality service.
